Code	Line	Column	Text
E501	47	80	line too long (189 > 79 characters)
E501	54	80	line too long (112 > 79 characters)
E501	91	80	line too long (121 > 79 characters)

## Your code

```
1 import os
2 import uuid as uuid # created unique user id
3 import jwt
4
5 from time import time
6
7 from bson import ObjectId
8 from flask import Flask, render_template, \
9     flash, request, redirect, url_for, session
10 from flask_wtf import FlaskForm
11 from werkzeug.security import generate_password_hash, check_password_hash
12 # to secure the name of the uploaded file
13 from werkzeug.utils import secure_filename
14 from wtforms import StringField, SubmitField, \
15
```
